The first book to be published on the subject, this is David Rose's look at 'Camp Delta' at Guantanamo Bay - the most controversial prison in the world. Rose's book is a well-informed indictment of the regime at Guantanamo - he has visited the camp, and interviewed guards, officials and the prison's commander. He has investigated the claims of British detainees released early in 2004, and describes a suffocating atmosphere of isolation, harrassment, Kafkaesque accusation and physical brutality.
